North Carolina, has just been discovered the track laid to a point between Thosand Wm. Mahou's which is about one fourth of a mile above the Mingo Iron Works. On inquiry we were informed that they were laying track at the rate of a half-mile per day, "To-day," said the workmen, "we will not get much laid as the rain this morning prevented the men from coming to work, and we have therefore a small force on." The rails and tires are brought on the train as far as the track is laid, and thrown off. The ties are loaded on wagons and distributed along the road bed, and the rails put on hand cars and shoved along to where they can be taken off and placed on the ites.

At Thos. Mahon's, some half dozen men with a cart were leveling up the road-bed From Mahon's to Cross Creek the grading is completed. Below the mouth of Cross Creek to Wellaburg there is but little grading to do, so Wellaburg may expect 'the train' in a short time. And thus endeth our chapter on rambles.

We should have mentioned at the proper time the death of one of our moatrespected citizens, Wm. H. Harvey, Sr. He died on Sunday, September 30, after a short illness, and was buried with Masonic honors on Toesday last, The function was largely attended. Mr. Harvey was well known throughout this section of country, having been engaged in the manufacture of paper all his life. He same under the work of the was a jost and upright man, a consistent Christian, a good citizen, and a friend to the needy. His loss in our community will be sorely felt. May he rest in peace.

Letier to the Lonirrille Courier Journal.

Well do I remember how during my in price from 18 cents, 14, 12 and 10, early childhood, we used to travel to the which latter figure it sold at last spring. "Springs." The family carriage would come to the door, and boxes beneath the seats would be packed with bed and table lines, towels, napkins and a silver face. seats would be packed with bed and table linen, towels, napkins and a silver fork and spoon for each one in the party. Immense boxes of lunch were packed, and cake enough baked to last for some time. Then the trunks were strapped on behind. When this was accomplished the coachman mounted the box, the nurse and baby took a front seat my little self beside her, and father and mother on the backseat. In those days ladies rarely had more than six dresses. One ball dress was sufficient and a black slik lasted for years. The cottages at the White Sulphur

The reasan for this fall in the price of The reason for this fall in the price of pig lead is given by a manufacturer of pig lead is given by a manufacturer of white lead in this city as being due to the over production of the commodity, owing to the fact that the ore is smelted by several large concerns for the aliver that is taken from it; or at least the silver taken from the ore almost pays for the lead as placed in the market. If this is the true theory, as it seems to be, there is scarcely a doubt but that pig lead must remain at its present low price; indeed it is the belief of many that the price will continue to fall till 3½ or 3 cents is reached, where it will stand.
